Our Differentiators

We bring thought leadership and proven results from across Federal, state, and commercial experience allowing us to deliver value, increase efficiency, and reduce risks.

Transformation: At USPTO – Introduced Agile strategic planning, DevSecOps, and Cloud. Delivered \$500M in transformation investments to improve efficiency, increase quality, reduce risk, and enhance business value delivered.

Innovation: At FDIC – Led strategy for migration to Cloud and application modernization, leading to increased productivity, innovation, and data center closing.

Investment Optimization: At TSA – Led consolidation of 28 platforms and 75 tools into a single Cloud based platform, saving the Agency over \$50M in annual operational costs.

Partnership: At DoED – managed a portfolio of \$1B in annual spending, optimized investments, and enabled positive return on investment.
